Amendments to the Claims:

- 1. (Original) A method of preparing hydroxyalkylalkylcellulose by reacting cellulose with an etherification agent, which comprises:
- performing a first reaction by adding 0.5-4 moles of an alkali metal hydroxide per 1 mole of cellulose and agitating the mixture, adding 0.5-3 moles of an alkylene oxide per 1 mole of the cellulose and adding 20-95 wt% of alkyl halide with reference to the total amount of alkyl halide added through the first and second reactions; and
- performing a second reaction by adding 1-4 moles of an alkali metal hydroxide per 1 mole of the cellulose, dispersing the mixture and then adding 5-80 wt% of an alkyl halide with reference to the total amount of alkyl halide added through the first and second reactions.
- 2. (Original) The method of preparing hydroxyalkylalkylcellulose according to Claim 1, wherein said reaction is performed at 60-110 °C and said second reaction is performed at 70-120 °C.
- 3. (Original) The method of preparing hydroxyalkylalkylcellulose according to Claim 1, wherein said alkylene oxide has 2-5 carbon atoms in the alkylene group.
- 4. (Original) The method of preparing hydroxyalkylalkylcellulose according to Claim 1, wherein said alkyl halide has 1-24 carbon atoms in the alkyl group.
- 5. (Original) The method of preparing hydroxyalkylalkylcellulose according to Claim 1, wherein the efficiency of said alkylene oxide is 60-75 %.
- 6. (Original) The method of preparing hydroxyalkylalkylcellulose according to Claim 1, wherein the efficiency of said alkyl halide is 60-70 %.
- 7. (Currently Amended) Hydroxyalkylalkylcellulose prepared by using a method according to any of Claims 1 to 6 Claim 1.
- 8. (New) Hydroxyalkylalkylcellulose prepared by using a method according to Claim 2.

- 9. (New) Hydroxyalkylalkylcellulose prepared by using a method according to Claim 3.
- 10. (New) Hydroxyalkylalkylcellulose prepared by using a method according to Claim 4.
- 11. (New) Hydroxyalkylalkylcellulose prepared by using a method according to Claim 5.
- 12. (New) Hydroxyalkylalkylcellulose prepared by using a method according to Claim 6.
